# **Abstract**

# **Manubot Rootstock Information**

## Note: Manubot instances should delete this file.

The Manubot is a system for automating scholarly publishing. Content is written in <u>Pandoc Markdown</u> source files. See <u>USAGE.md</u> for more information on how to use the Manubot.

The Manubot project began with the <u>Deep Review</u>, where it was used to compose a highly-collaborative review article [1]. Another example manuscript that was created with Manubot is:

• The Sci-Hub Coverage Study (GitHub, HTML manuscript) [2]

If you notice a problem with Manubot, it's best to submit an upstream fix to the appropriate repository: <a href="manubot-rootstock">greenelab/manubot</a> for the Python package.
